Validator Code of Conduct

Purpose

The purpose of this document is to set out the expected conduct of validators who participate in the Tgrade network.

Code of Conduct

A requirement to operate validator nodes and where applicable peg signers to a professionally competent standard;

A requirement to operate validator nodes and where applicable peg signers in good faith and to refrain from maliciously, intentionally, knowingly or negligently confirming or signing double-spend, false or otherwise invalid transactions;

A requirement to refrain from maliciously, intentionally, knowingly or negligently confirming or signing invalid blocks, or "double-signing" (ie signing two different blocks at the same height).

A requirement to refrain from engaging in any form of market abuse or market manipulation in connection with the acquisition, retention or disposal of any Tgrade Tokens, or in any other conduct that may undermine or negatively affect the reputation or development prospects of the Tgrade Blockchain and / or its related initiatives.
